

# The Stucco Guys Glide On In To Get Your Goods Delivered!

Vince, Larry, and Tony caught the first wave into San Diego to deliver Merlex stucco products with a first class flare. Whether your project's big or small, the Merlex sales team is just a phone call away, or visit the new warehouse in Sorrento Valley and meet Warehouse Manager, Sal Espinoza, and Color Lab Technician, Abraham Palomino, who are dedicated to the quality and service they produce.

The warehouse will be stocked with our complete product line, including acrylic finishes, and full color lab to expedite color matches and samples. Customers may also order fogcoat and Add A Pak color packs to be made to order for quick turnaround. Easy access from the 5 and 805 freeways. Cowabunga, dude! Merlex has arrived in San Diego and ready to ride the wave!
