PRODUCT TOXICOLGY

PRODUCT INFORMATION:
Product may contain small amounts of residual vinyl acetate. Vinyl acetate vapors have been shown to cause tumors in the respiratory tract of laboratory animals exposed to 600 ppm over a lifetime; 200 ppm caused irritation; 50 ppm produced no observable effect. There is no evidence of adverse effects to humans exposed to levels at or below the ACGIH TLV. Although this product has not been tested for chronic effects it is judged as having a low order of toxicity based on component information.
